EDUCATION

Harvey Mudd College / Claremont, CA / *Graduation: May 2025*
B.S. Mathematics & Computer Science / GPA 3.96
- Co-leader of On The Loose (outdoors club with 500+ members) where I help manage a $10,000 budget, train students to lead outdoor hiking and camping trips, and spearhead initiatives to increase accessibility to the outdoors.
- Society of Women Engineers (SWE), Poker club, Asian-American affinity group mentor, computer science grader and tutor, Vice President of the Chocolate Society.

EXPERIENCE

Apple / Santa Clara Valley, CA
Product Management Intern / *May 2023 - August 2023*

- Learned the 2-sided AdTech marketplace and competitive landscape to help identify new areas of opportunity.
- Collected and analyzed data from various big data sources using SQL and Python to identify key insights.
- Wrote clear and concise product requirements that captured the vision, goals, and key elements of new features and products.
- Iterated on a feature using data-driven decision-making to improve aspects of privacy-preserving advertising.
- Modeled a proof of concept to kickstart a feature pilot.
- Crafted a presentation for Apple executives.

Beli / New York, NY
Software Engineering Intern / *June 2022 - July 2022*

- Spearheaded a redesign of the in-app filtering system by conducting and presenting market research, designing and revising the UI/UX on Figma, and implementing it in the front/backend in Typescript and Python.
- Oversaw the feature launch process by writing product documentation, testing, and collecting user feedback.
- Built their E2E testing framework from scratch using Cypress.
- Delivered a feature from start to finish and launched to 60K users.

Stellar Pizza / Los Angeles, CA
Product Management Intern / *January 2022 - May 2022*

- Initiated a new customer loyalty program for this pizza-making robot startup.
- Proposed this framework to the CEO with mockups, user research, and market data.

Product Space / Claremont, CA
Product Management Fellow / *September 2021 - May 2022*

- Practiced product sense skills such as user research, UI/UX design thinking, product prioritization, and crafting presentation decks.

SKILLS

Product Planning and Documentation, Python, Typescript, HTML/CSS, Java, C++, SQL, Hive, AGILE Project Management, Figma (UI wireframing, one-pagers).
